

Tap-down top capping eliminates the need for screws, speeding up assembly

Co-extruded isolators reduce the need for multiple gaskets, simplifying installation.

28.8mm Laminate Glazing for enhanced safety

TECH SPECIFICATION

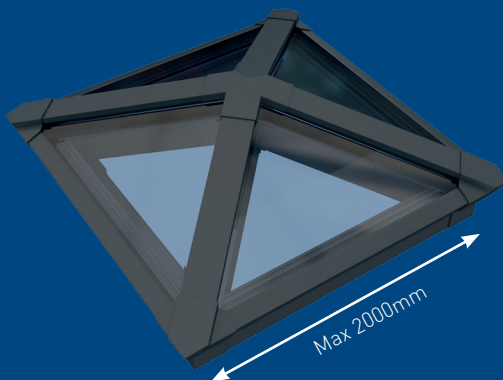

- ✦ Max Width: 2000mm
- ✦ Max Length: 4500mm*
- ✦ Min Ridge Length: 300mm
- ✦ Fixed Pitch: 25°
- ✦ Glazing: 28.8mm Laminate Glazing

*Dependent on adequate supporting structure.

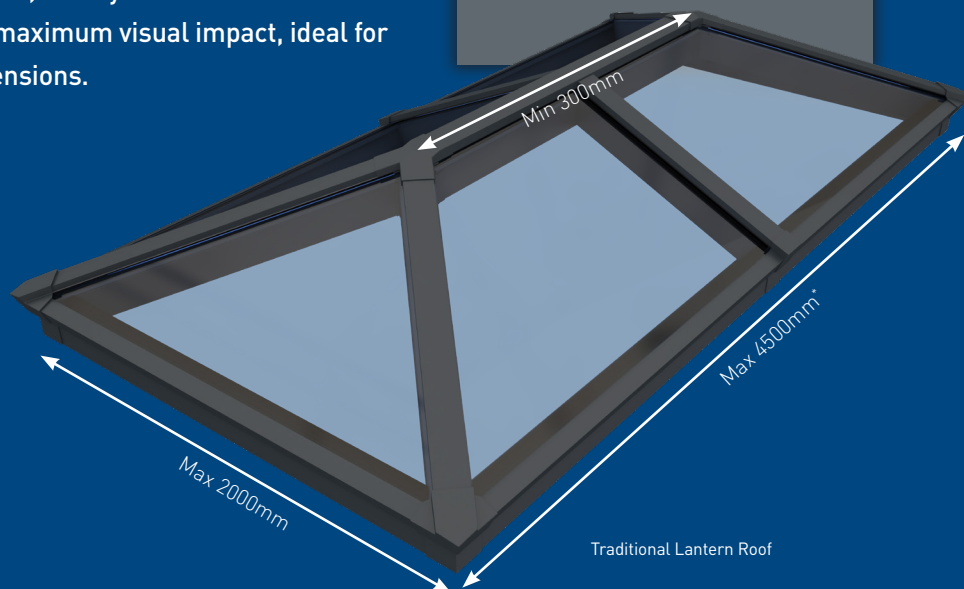

SMART LANTERN

Lantern Roofing System

Smart Lantern is the latest innovation from Smart, engineered to deliver contemporary aesthetics and intelligent performance in one sleek package. Designed with ease of fabrication in mind, the system features narrow sightlines and fully concealed fixings for maximum visual impact, ideal for modern living spaces and light-filled extensions.
